

## **LIMITED WARRANTY**

**CONVAULT AUSTRALIA PTY LTD** warrants to the original owner for each **CONVAULT** tank against defects in material or workmanship, except as set forth below, for a period of ten (10) years from the date of purchase and agrees to repair or replace any defective unit. The value of replacement tank will not exceed purchase price of the original tank. The difference in cost will be covered by the owners of the tank. **FAILURE TO INSTALL IN ACCORDANCE WITH MANUFACTURERS SPECIFICATIONS OR REPAIRS OR MODIFICATIONS BY NON-AUTHORISED PERSONS WILL VOID THE WARRANTY.**

**CONVAULT** tanks are designed for the storage of products compatible with steel and not for storage of corrosive, toxic materials or chemicals. To maintain this warranty, the user has a duty to conduct visual inspections at least weekly to check for leaks. In the event of leaks being detected, **CONVAULT AUSTRALIA** must be contacted on the following number: **(03) 5331 5716**. The primary tank must be inspected monthly for the presence of any water and any water found must be removed. This warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, acts of God, or the affixing of any attachment not provided with the product. \* This warranty is limited to the tank only and does not include paint, decals, air vents, pump and/or pump components. This warranty does not cover transportation cost of the replacement tank, the cost of labour or any other associated installation costs. Small crack(s) in concrete resulting from normal expansion and contraction are not covered by warranty. Such cracks will not affect primary or secondary containment or fire retardation abilities of the tank.

**THIS WARRANTY IS LIMITED TO REPLACEMENT OR REPAIR OF THE CONVAULT TANK AT CONVAULT AUSTRALIA'S OPTION AND EXCLUDES ANY OTHER OR FURTHER REMEDIAL MEASURES. NO RESPONSIBILITY OR LIABILITY IS ASSUMED FOR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.**

**CONVAULT AUSTRALIA** must authorise all warranty work beforehand. To perform warranty service, the **CONVAULT** tank must be accessible by forklift or crane and **CONVAULT AUSTRALIA** will not be liable for any costs or damages resulting from lack of accessibility. There are no warranties which extend beyond the face hereof.

Tanks storing methanol and ethanol must use pressure-vacuum vents in order to qualify for the standard warranty life. Failure to use pressure vacuum vents at the time of installation will result in the tank warranty life being reduced to half life i.e., a 10 year tank warranty becomes a 5 year tank warranty.

\* **CONVAULT** primary tank may be pressurised up to 7 kPa for testing purposes only, provided however, that after flammable or combustible liquids have been placed in the tank, the tank shall be pressurised using inert gasses such as Nitrogen. If any additional testing is required, please contact **CONVAULT AUSTRALIA** for instructions prior to testing.

This limited warranty is given to the original purchaser of the tank and is not transferable. Failure on the part of the owner to register this warranty with **CONVAULT AUSTRALIA** within 30 days of tank leaving the premises of manufacturer will void this warranty.
